

# NEW: MESO I LASER

## Electroporation I Impulse Laser System

### MESO I LASER MEDICAL-COSMETIC EQUIPMENT

MESO I LASER is the most advanced no-needle transdermal drug delivery system using electroporation technology and impulse laser therapy system for improved professional treatments to work directly and effectively on:

- Skin Rejuvenation, Skin Flaccidity
- Wrinkle Clearance
- Hyper Pigmentation
- Cellulite Treatment
- Stretch Mark Treatment
- Fat Deposit Treatment, Body Sculpting
- Hair Implantation
- Acne, Scars, Striae, Facial Erythrosis
- And many other Aesthetic Applications

### ADVANTAGES AND BENEFITS TO CLIENTS

- OUTSTANDING RESULTS FROM THE 1<sup>ST</sup> SESSION - FAST AND DURABLE
- TAYLORED FOR SPECIFIC NEEDS
- COMFORTABLE TREATMENTS
- NO TRAUMA FROM INJECTIONS
- NO IRRITATIONS, BURNINGS OR INFLAMMATIONS
- NO NEED OF CONDUCTOR GEL, NO RETURN ELECTRODE

# NEW: MESO I LASER

## Maximum Gain without Pain...

### MESO I LASER - Enhance the Effectiveness of Your Treatment

#### Mesoporation for Increased Skin Permeability

Mesoporation uses high pulsed electromagnetic waves (electroporation) which **increases the skin permeability** allowing **improved passage for enhanced and even uptake of vitamins, minerals, amino acids and enzymes.**

#### Laser Therapy Bio-Stimulates the Skin Cells

This **high-performance impulse laser system** does **not damage the tissue** but **deeply stimulates the skin cells** and **activates** all metabolic processes to reorganize the **collagen matrix, fibroblast** and to induce **cell reactivation.**

The **red laser light** (wavelength 670nm) **takes effect** on the **top skin layers, invisible pulsed infrared light** (wavelength 904nm) guarantees a high penetration in **deeper layers of the skin.**

#### MESO I LASER Electroporation + Laser Therapy System

- **Electroporation System** - two presets for face and body
  - Proprietary waveform with high voltage microcurrent
- **High-Performance Impulse Diode Lasers**
  - Six super-pulsed 904nm laser diodes (Infrared Light)
  - Six 670nm laser diodes (Red Light)

➤ **MESO I LASER** allows the **use of combination treatments that work in synergy to strenght both effects.** The absorption of active principles which penetrate **through electro-poration** is improved and the **benefits of the treatments are boosted.**

### A NEW GENERATION FOR BEST QUALITY AMPOULES

All preparations are **completely sterile**, removing the need for preservatives and additives.

A comprehensive range of selected pure active ingredients enable you to select the exact blend to meet individual needs and deliver outstanding results, time after time.

- **VIT- B COMPLEX (Vitamins 1, 2, 3, 6, 7, 12) - Anti- Aging & Regeneration Solution**
- **VIT- A, C, E COMPLEX - Anti- Aging & Complex**
- **ARGIRELINE 15 % - Anti- Wrinkle Solution**
- **ORGANIC SILICIA & DMAE - Regenerating & Firming Solution**
- **ASIAN CENTELLA - Cell Activation Solution**
- **GLYCOLIC ACID 3 % - Brightening Solution**
- **AND SEVERAL SPECIFIC OTHERS ...**
